* Single-product load on a volume basis: 67 CBM usable ÷ carton CBM. A normal mixed load of plates, bowls and platters is **300,000–350,000 pieces per 40ft HC**; a 20ft holds about 120,000–150,000 pieces. Payload ceiling 28,000 kg.

Rim: Classic line 3 mm rim, for dry food · Standard line 5 mm rim, for wet food. **Packing:** shrink-wrapped inner packs × packs per carton. Inner packs of 10 and cartons of 200 are available on request (they change the carton size slightly). Carton limit 18 kg.

Dimensions are nominal. Palm leaf is a natural material, so each piece varies slightly; leaf thickness is natural and is not a specification. Grades are set on appearance (colour, surface) only. Carton sizes and weights are from Ecodyne packing lists; final figures are confirmed on your proforma invoice and packing list. HS heading 4602.19 (India ITC-HS 46021919 / 46021990).
